---

Dear Councilor Denise Simmons,

I hope this message finds you well.

My name is Tim LaRock and I am a resident of Cambridge, writing you today about the issue of divestment of the City of Cambridge from Hewlett-Packard. HP is a company that knowingly and intentionally profits from the violent segregation of the Palestinian people and the violation of Palestinian human rights by the state of Israel. Divestment from HP is a small and straightforward way for the Cambridge community to stand counter to violent discrimination against Palestinians and stand up for justice peacefully and nonviolently.

As a Cambridge resident, I hope you will take a stand and support divestment when this issue is discussed and voted on by the Cambridge City Council.

Best regards,
Timothy LaRock

183 Columbia Street, Cambridge
